## JFRM Jörg Friedrichs Research Material

1929-1987

179 documents

This collection provides documents from the 1960s and early 1970s as a background to a book by Jörg Friedrichs on "Fighting Terrorism and Drugs: Europe and International Police Cooperation" (London and New York: Routledge, 2008). These documents Friedrichs collected from British, German, French, Italian and international archives and have been brought together to form a collection which has been deposited in the HAEU.

In the book, the situation in the 1960s and 1970's is compared to the current situation. The analytical focus is on the policy preferences of the four largest and politically most important West European states: Britain, France, Germany and Italy. T

Jörg Friedrichs is a former Max Weber Fellow at the European University Institute, Florence who completed his PhD thesis on International Relations with Prof. Friedrich Kratochwil at the University of Munich. He wrote a book called " Fighting Terrorism and Drugs : Europe and International Police Cooperation" which was published in September 2007.
